HOME
is the central thought of the happy members of your household. Your wife and your children all long for a home of your own. If you are now living in rented quarters, isn't it about time to decide to act?
You can buy a home and get a better bargain than to try to build—then, too, to say you want to build your own home is usually a cheap excuse for deep sleep.
Get out of the rut of always renting and go out and buy a home of your own.
